Math Placement Guide
Summer 2022/Fall2022/Spring 2023

Step 1: Obtain student's self-reported High school **GPA.** This measure may be used to place students in MAT 085,094,095,135,137,137L,139. Stemify and/or SAT is recommended for the most accurate placement.

Step 2: Instruct student to take **Stemify** and obtain **SAT** scores if student has them. These multiple measures **must** be used if students wish to place into any Math higher than MAT137 or MAT 137L.

Course	GPA	Stemify (scores are out of 33)	SAT	ACT
MAT 085,094, or 095	< 2.8	MAT 085: Stemify Algebra 0-4 MAT 094: Stemify Algebra 5-6 MAT 095:Stemify Algebra 7-12	200-479	
MAT 135, 137L, or 139 135 is non-STEM, non-transfer 137L is non-STEM 139 is STEM	$\geq 2.8 - 3.09$	Stemify Algebra 13-17	480-529	
MAT 137L (non-STEM) or **MAT 137** (STEM only)	≥ 3.1	MAT137L: Stemify Algebra 13-17 MAT 137: Stemify Algebra 18-26	530-569	18-21
MAT 141,146,152,167 (non-STEM)	Must use Stemify/SAT/ACT	Stemify Algebra 18-26	570-619	22-25
MAT 172,190	Must use Stemify/SAT/ACT	Stemify Algebra 27-33	620-679	26-28
MAT 186	Must use Stemify/SAT/ACT	Stemify Calculus 17-21	680-800	≥ 29
MAT 254	Must use Stemify	Stemify Calculus 22-33	N/A	

How does a student take Stemify? They should search their Tunxis email for an invitation from verifications@stemify.ai. They can take the assessment at home and it usually takes about an hour. They may retake the assessment as well if they are not pleased with their placement.

Trouble accessing Stemify? Have the student email support@stemify.ai for help.
