PROGRAM: EARLY CHILDHOOD EDUCATION A.S. DEGREE
(Numbering reflects Program Outcomes as they appear in the college catalog)
1. use knowledge of how children develop and learn in order to provide opportunities that support the physical, emotional, social, language, cognitive, and aesthetic development of all young children from birth through age 8
2. use knowledge of how young children differ in their development and approaches to learning to support the development and learning of individual children
3. create and modify environments and experiences to meet the individual needs of all children, including children with disabilities, developmental delays, and special abilities
4. apply knowledge of cultural and linguistic diversity to create environments and experiences that affirm
and respect culturally and linguistically diverse children, support home-language preservation, and promote anti-bias approaches and the valuing of diversity

9. demonstrate sensitivity to differences in family structure, and social and cultural backgrounds

11. use informal assessment strategies to plan and individualize curriculum and teaching practices to meet the needs of individual children and to ensure the continuous physical, social, emotional, aesthetic, and cognitive development of children

14. demonstrate an understanding of conditions of children, families, and professionals; current issues and trends; legal issues; and legislation and other public policies that affect children, families, and programs for young children and the early childhood profession

15. demonstrate an understanding of the early childhood profession; its historical, philosophical, and social foundations; and how these foundations influence current thought and practice

16. demonstrate awareness of, and commitment to, the profession’s Code of Ethical Conduct.
